

GLOBAL EHR

Medtivist Cloud

The ONE EHR System that does it all.

Healthcare IT Solutions

Management Info Systems | Medical Imaging | Interoperability

DICOM PACS Server

Cloud / on-Premises PACS deployments for Hospitals, Diagnostic Centers.

IHE PASSED FDA 510(k) CE 0197

DICOM Viewers

DICOM Viewers for PACS Workstations to view and analyze medical images.

EMR / EHR

World's best Cloud / on-Premises OpenEMR Software for Hospitals and Clinics.

Interoperability

Medical Information Exchange (HL7 messages) between Hospital departments.

What is Interoperability ?

HL7 messaging examples for medical information exchange.

Everything you need in an EHR solution for an affordable price.

GlobalEHR is the most popular open-source electronic health records and Medical Practice Management Solution. **ONC 2015 Cures Certification** with Ground breaking **DICOM, PACS and UNIFIED COMMUNICATION** Integrations. GlobalEHR is an electronic health record (EHR) system that was originally developed in 2002 by physicians to help them run their practices.

The screenshot displays the GlobalEHR Medtivist Cloud interface. At the top, the logo features a globe icon and the text 'GLOBAL DICOM Medtivist Cloud'. Below the logo are several search filters: Patient ID, Patient Name, Accession Number, Study Description, Labels, and Study Date (with a dropdown menu set to 'Any date'). Below these filters are three buttons: 'All patients' (blue), 'All studies' (blue), and 'Do lookup' (yellow). To the left of the buttons is the 'SLI CERTIFIED' logo. In the center, there are three dark grey buttons with white text: 'The Cancer Imaging Archive', 'Open Orthanc Explorer 2', and 'Open DICOMweb client'. To the right of these buttons is the 'ONC Certified HIT' logo, which includes a stylized star and the text 'ONC Certified HIT'.

solutions for every specialty

Mental Health	Dermatology	ENT	Physiotherapy
Neurology	OBGyn	Oncology	Optometry
Orthopedic	Pathology	Podiatry	Surgery
Family Practice	Ophthalmology	Ambulatory	Wound care
Gastroenterology	Psychiatry	Urgent care	Pain management

It is **ONC Certified** and it features fully integrated customized electronic health records, **(EHR)** practice management, scheduling, electronic billing, internationalization support, a vibrant community, and a whole lot more. It can run on **Windows, Linux, Mac OS X, and many other platforms**. Features supported are listed below:

Patient Demographics

- ❖ Track patient demographics
 - Primary information (name, date of birth, sex, identification)
 - Marital status
 - Contact information of patient and patient's employer
 - Primary provider
 - HIPAA information
 - Language and ethnicity
 - Insurance coverage
 - Deceased Tracking
- ❖ Fully Customizable

Patient Scheduling

- ❖ Patient Flow Board, Tracking, and Reporting
- ❖ Supports multiple facilities
- ❖ Patient appointment notification via email and SMS
- ❖ Recall (reminders) Board
- ❖ Compact and flexible appointment calendar
- ❖ Calendar features include:
 - Find open appointment slots
 - Categories for appointment types
 - Colors associated with appointment types and facility
 - Repeating appointments
 - Restricting appointments based on type
- ❖ Random Patient Drug Screening

Electronic Medical Records

- ❖ Interoperability
- ❖ CCDA
 - FHIR support for **ONC US Core IG** (**SMART on FHIR** is included)
 - Encounters
 - Medical Issues
 - Medications
 - Immunizations
 - Forms and clinical notes:
 - ✓ Vitals (growth charts included)
 - ✓ SOAP note
 - ✓ Review of systems
 - ✓ Eye (**Ophthalmology/Optometry**) Module
 - ✓ Template Driven Forms
 - CAMOS (**Computer Aided Medical Ordering System**)
 - Nation Notes (**WYSIWYG editor**)
 - ✓ Ability to create and customize forms
 - Group Therapy

- Graphical Charting
- Labs
- Procedures
- Patient Reports
- Referrals
- Patient Notes
- Disclosures
- Electronic digital document management
- Voice recognition ready ([MS Windows](#))
- Paper Chart Tracking
- Electronic Syndrome [Surveillance](#) reporting
- Clinic Messaging
- Send and Receive Medical Records via Direct Messaging
- Dated Reminders
- Medical Image Viewer ([DICOM](#))

Prescriptions

- ❖ Online drug search
- ❖ Track patient prescriptions and medications
- ❖ Create and send prescriptions
 - ✓ E-Prescribe
 - ✓ Print
 - ✓ Fax
 - ✓ Email
- ❖ Customizable layout including options for DEA, NPI and state license numbers.
- ❖ **In-house pharmacy dispensary support**

Medical Billing

- ❖ Flexible system of coding including [CPT](#), [HCPCS](#), [ICD9](#), [ICD10](#) and [SNOMED codes](#), and the ability to add others
- ❖ Support for 5010 standards
- ❖ Support for Institutional Billing Standards (UB-04)
- ❖ Support for electronic billing to clearinghouses such as [Office Ally](#), [ZirMED](#) and [ClaimRev](#) using ANSI X12
- ❖ Support for paper claims
- ❖ Medical claim management interface
- ❖ Insurance Eligibility Queries
- ❖ Insurance Tracking Interface
- ❖ Accounts Receivable Interface
- ❖ EOB Entry Interface
- ❖ Customizable to work with a clearing house for automated 835 or ERA entry

Clinical Decision Rules

- ❖ Physician Reminders
- ❖ Patient Reminders
- ❖ Clinical Quality Measure Calculations
- ❖ Automated Meaningful Use Measurement Calculations
- ❖ Fully Customizable and Flexible

Patient Portal

- ❖ Modern User Interface
- ❖ Scheduling and Appointments
- ❖ Secure Messaging and Chat
- ❖ Online Payments
- ❖ Send Records via Direct Messaging
- ❖ Customized Forms
- ❖ New Patient Registration
- ❖ CCD A Support
- ❖ Reports
- ❖ Labs
- ❖ Medical Problems
- ❖ Medications
- ❖ Allergies
- ❖ Appointments
- ❖ **Secure API that Supports Third Party Patient Portals**

Reports

- ❖ Appointments
- ❖ Encounters
- ❖ Patient Lists
- ❖ Prescriptions and Drug Dispensing
- ❖ Referrals
- ❖ Immunizations
- ❖ Clinical Measure Calculations
- ❖ Clinical Quality Measures (CQM) Calculations
- ❖ Automated Measure Calculations (AMC) and Tracking
- ❖ Syndromic Surveillance
- ❖ Pending Procedure Orders
- ❖ Ordered Procedure Statistics
- ❖ Paper Chart Tracking
- ❖ Sales
- ❖ Collections
- ❖ Insurance Distributions
- ❖ Insurance Eligibility

Multilanguage Support

- ❖ Supports use of multiple languages within the same clinic
- ❖ Currently Supported Languages:

>English >Arabic>Armenian >Bahasa >Indonesia >Chinese >Czech>Danish >Dutch
>Finnish >French >German >Greek >Hebrew >Hindi >Italian >Japanese >Marathi
>Persian >Polish >Portuguese >Romanian >Russian >Spanish >Spanish (Spain)
>Swedish >Tamil >Turkish >Ukrainian >Vietnamese

- ❖ Any language can be added and translated in a [Collaborative Google Docs Spreadsheet](#) maintained by the [GlobalEMR](#) community
- ❖ Fully supports UTF-8 encoding
- ❖ Supports RTL

Security

- ❖ Support for Role Based Menus and Custom Menus
- ❖ Ability to Encrypt Patient Documents
- ❖ Supports fine-grained per-user access controls
- ❖ Active Directory Support
- ❖ Database Connection Encryption Support
- ❖ Remotely accessible from any modern web browser with a suitable security certificate installed

Support

- ❖ [Vast Online Documentation](#)
- ❖ [Free Online Forum](#)
- ❖ [Free Online Chat](#)
- ❖ [Numerous Free and Professional Support Options](#)

Community

- ❖ [GlobalEMR Cloud Solution](#) for medical practices.
- ❖ Thriving and enjoying some of the broadest user support and developer support.
- ❖ [GlobalEMR](#) is the most popular [EHR](#) in use today with over 4,000 downloads per month.
- ❖ More than [174](#) developers/companies have contributed code to [GlobalEMR](#).
- ❖ [GlobalEMR](#) codebase is openly improved on a daily basis.
- ❖ [Community Website](#)
- ❖ [Community Wiki](#)

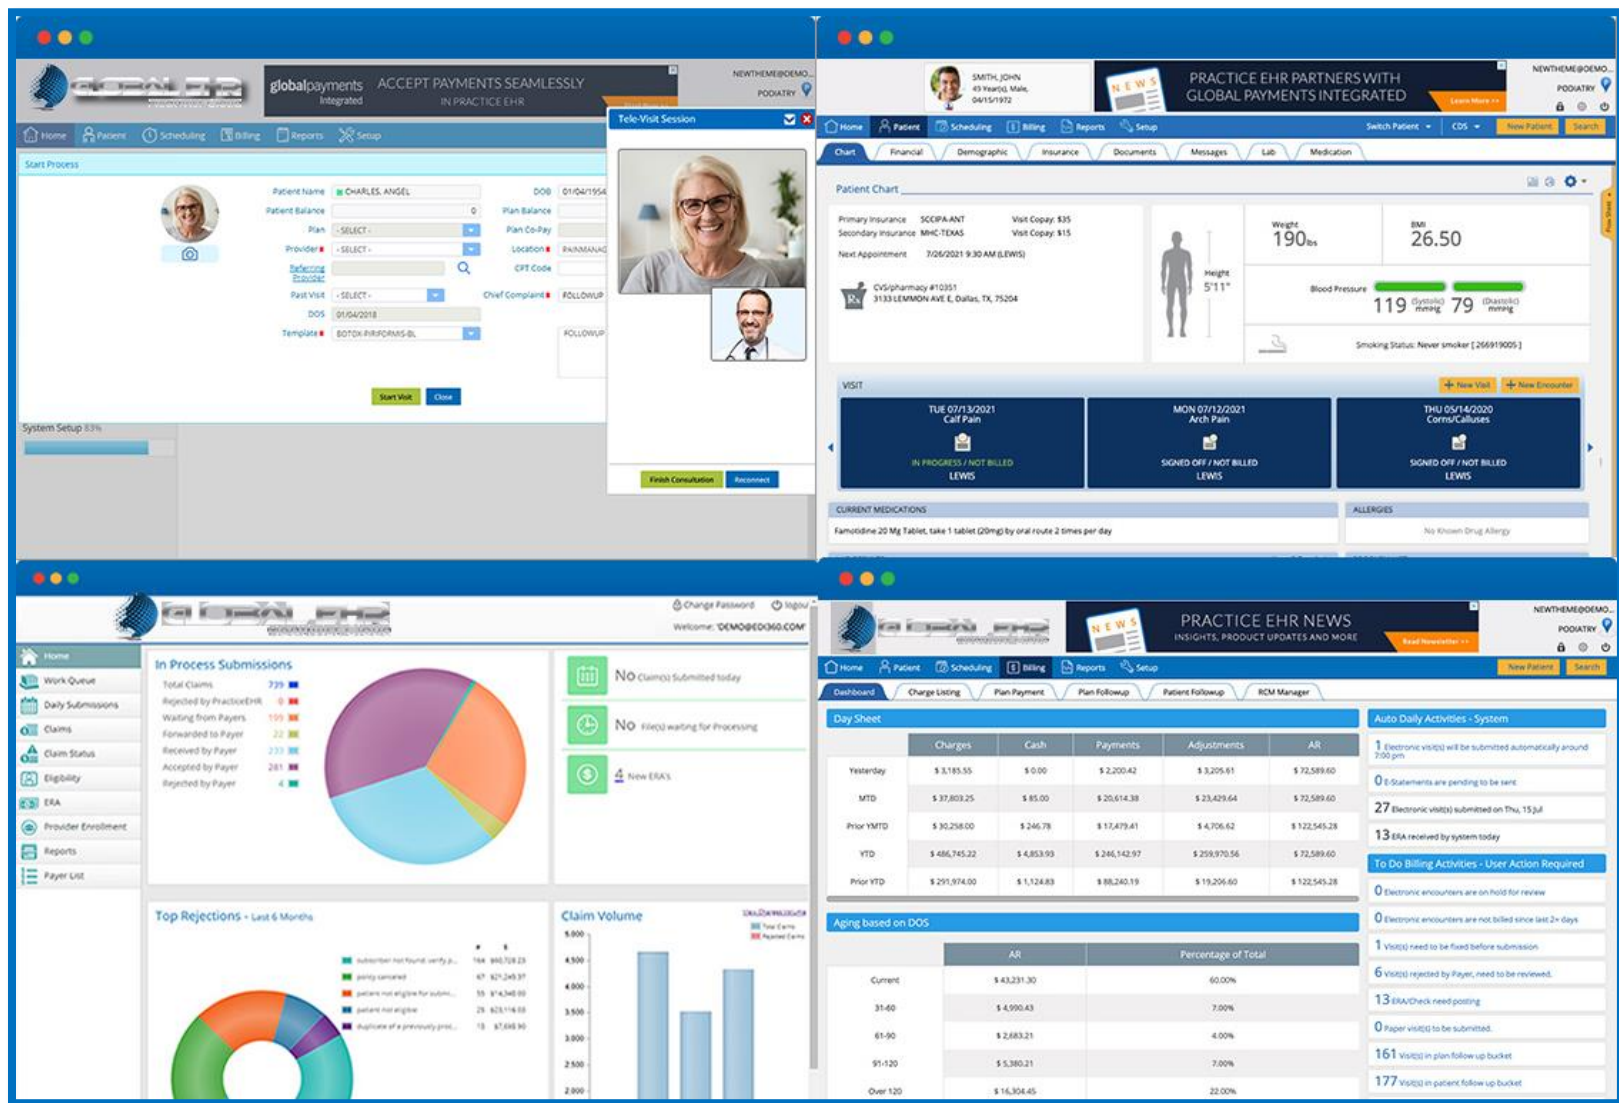

Latest Version Fully Customized Integrations for your own requirement

- ❖ 2015 [ONC Cures Update Certification](#)
- ❖ New Support for Following Easy to Use Core Modules:
 - ✓ [Telehealth](#)
 - ✓ [Fax and SMS](#)
 - ✓ [Billing Claim Submissions](#)
 - ✓ [Payment Processing](#)
 - ✓ [Prior Authorization](#)
- ❖ New FHIR and Encounter Questionnaires and Assessments
- ❖ New PKCE Support for Oauth2
- ❖ New Real World Testing Report
- ❖ New Support for Immunizations Export to Spreadsheet
- ❖ New Support for Login Tokens
- ❖ Added Voided Claim to Misc. Billing Options and 837 File
- ❖ Added PHQ-9 Form
- ❖ Login Screen Improvements and Fixes

- ❖ Branding and Logo Improvements for Multisite
- ❖ CCDA Improvements and Fixes
- ❖ FHIR Improvements and Fixes
- ❖ API Improvements and Fixes
- ❖ Calendar Improvements and Fixes
- ❖ Prescription and Medication Improvements and Fixes
- ❖ Patient Portal Improvements and Fixes
- ❖ Vitals form improvement and Fixes
- ❖ Billing Improvements and Fixes
- ❖ Payment Improvements and Fixes
- ❖ Invoice Improvements
- ❖ Encounter Improvements and Fixes
- ❖ Insurance Improvements and Fixes
- ❖ Messaging Improvements and Fixes
- ❖ Telehealth Module Improvements and Fixes
- ❖ Layout Editor Improvements and Fixes
- ❖ ICD10 Codes Update
- ❖ ICD10 Import Improvements
- ❖ GAD7 Form Improvements
- ❖ External Data Report Improvements and Fixes
- ❖ Module Installer Improvements
- ❖ Google Sign-in Module Fixes
- ❖ Track Anything Module Fix
- ❖ File White Listing Fixes
- ❖ Patient Portal Registration Fix
- ❖ Patient Search Fix
- ❖ Patient History Form Fix
- ❖ Patient Portal EASIPRO Fix
- ❖ Patient Portal History Form Fix
- ❖ Growth Chart Fix
- ❖ Practice Settings Insurance Companies and Pharmacies Fixes
- ❖ Procedure Statistics Report Fix
- ❖ Background Service Manager Fix
- ❖ Recall Board Fixes
- ❖ Language Editor Fixes
- ❖ Docker Updates to Support Kubernetes and Orchestration
- ❖ PHP 8.1 and 8.2 Fixes
- ❖ Security Fixes

Custom Optimization - We made the best and most effective use of a situation or resource.

- ❖ **DATA** Migration from old software, Platform, or any Cloud.
- ❖ **PACS** Migration from old software, Platform, or any Cloud.
 - ❖ **AI PACS** (Coming soon)
 - ❖ **AI Pathology** – artificial intelligence (AI)-based Pathology (Coming soon)
 - ❖ **AI Radiology** – artificial intelligence (AI)-based Radiology (Coming soon)
- ❖ **E-referral** – provides an easy way for patients to choose their first hospital or clinic appointment with a specialist.
- ❖ **e-Sign Device** – Electronic Signature Pads
- ❖ **Send a Fax via** – API **Fax** API is a programmable way to send and receive fax documents using the cloud.
- ❖ **Payment Gateway** – Payments conveniently provides both a gateway and a merchant account.
- ❖ **Telecom** – Unified communications (**UC**) is an umbrella term for the integration of multiple enterprise communication tools -- such as voice calling, video conferencing, instant messaging.
- ❖ **Cyber AI** – AI-powered cybersecurity tools are designed to identify and detect attacks in real time and can automate the incident response process.
- ❖ **Computer Vision** – focuses on enabling computers to identify and understand objects and people in images and videos.
- ❖ **Surveillance System** – System analyses traffic and particularly focuses on the problem of detecting and categorizing traffic objects in several traffic scenarios.
- ❖ **Healthcare IoT** – Enables healthcare providers to extend their reach outside of the traditional clinical setting. Home monitoring systems allow patients and doctors.
- ❖ **Click-to-call dialer** – Click-to-call allows users to click on any phone number in their web browser to instantly dial it.
- ❖ **Cloud IVR** – Call managing solution primarily used for routing customer calls to multiple departments basis user keypad input tones.
- ❖ **Courier Integration** – Software connects ecommerce stores to different courier platforms, enabling businesses to manage shipments from one centralized location.

The ONE EHR System that does it all.

Everything you need in an EHR solution for an affordable price.
